Objective

I'm a UI/UX Developer with 5 years of experience in designing and developing user-friendly interfaces. I specialize in creating engaging, responsive designs with a strong focus on usability. I'm skilled in using tools like Figma, Sketch, and Adobe XD, and I have a solid understanding of front-end technologies like HTML, CSS, and JavaScript. My goal is always to create seamless, intuitive user experiences that help solve real-world problems and meet user needs. I enjoy collaborating with teams to bring ideas to life and continuously improving my skills in design and development

Work Experiences

Senior Software Engineer (UI/UX) | Chetu Inc.

Uttar pradesh, India (Sep 2021 - Mar 2025)

- Lead the design and development of user interfaces for multiple web and mobile applications, focusing on user-centered design principles and responsive layouts.

- Collaborated closely with product managers and developers to define user requirements and create wireframes, prototypes, and high-fidelity designs using Figma.

- Translated design concepts into interactive front-end components using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal performance.

- Created and maintained design systems and UI guidelines to ensure consistency across multiple platforms and products.

UI/UX Developer | Infodia Technologies

Uttar Pradesh, India (Apr 2020 - Aug 2021)

- Designed intuitive user interfaces for client websites and mobile applications, ensuring seamless navigation and a positive user experience.

- Developed wireframes, mockups, and prototypes to visualize the user journey and design flow for better understanding and collaboration.

- Participated in user research and persona creation to ensure designs met the needs of target audiences.

- Collaborated with developers to implement designs and troubleshoot issues, ensuring the final product matched the design vision.
